Congratulations, NP graduates! We are Advanced Practice Education Associates, and we’re excited to share some resources with you!

APEA can help you prepare for success on your certification exam and success in your clinical practice. Here are a few ways we do that:

- **Live Review Courses**: >99% of attendees pass their exam on the first try! Our course is so effective we provide a guarantee! Get details at [https://apea.com/live-certification-review/](https://apea.com/live-certification-review/). Payment plans available!

- **On Demand Review Courses**: Watch or listen to lectures at your own pace using the On Demand options for video, audio or MP3 player. Learn more at [https://apea.com/on-demand/](https://apea.com/on-demand/).

- **Study Questions**: Answering multiple choice questions with detailed rationales is one of the most effective components of any study plan. APEA has four question banks to choose from — with a total 3,200 question across all banks! Get info at [https://apea.com/study-questions/](https://apea.com/study-questions/).

- **Practice Tests**: As the saying goes, practice makes perfect! APEA has created practice tests that prepare you for certification. Use them to increase your knowledge — and your comfort level with test taking! [https://apea.com/study-questions/](https://apea.com/study-questions/).

- **Predictor Exams**: When you are comfortable with your knowledge level, it’s time to objectively determine your likelihood of passing the exam. APEA has the only exam that has proven reliability, predictability, and validity. The only way to know for sure if you are likely to pass the certification exam is to take an APEA Predictor Exam: [https://apea.com/predictor-exams/](https://apea.com/predictor-exams/).

*Best wishes to you in your new career!*
